

JOHN MCMASTERS PUBLICATIONS AND TECHNICAL PAPERS

1. McMasters, J. H., "A Comparative Analysis of Advanced Air-to Air Guided Missiles," Air Force Weapons Laboratory Report, October 1963. (Classified)
2. McMasters, J. H., "A Preliminary Proposal for a New Air-to Air Guided Missile for Use of the F101B and F-106," Air Force Weapon Lab., Tech. Report TR64-115, September 1964. (Classified)
3. McMasters, J. H., "An Analysis of the Initial Wind Tunnel Tests of the AIM-X 'Quetzalocatl' Missile," Air Force Weapon Lab., Tech. Report TR 65-5, January 1965, (Classified)
4. McMasters, J. H., Jenkins, R., Abbott, D., Groves, R., Jr., and Hoglund, R., "An Analytical Study of Methods of Calculating Flow Fields in Compressor-Turbine Passages," Mid-West Applied Science Corp., Report MASCO PD 533F, December 1967.
5. McMasters, J. H.; Cole, C. J. and Skinner, D. A., "Man-Powered Flight," AIAA Student Journal. April 1971.
6. McMasters, J. H., "The Optimization of Man-Powered Aircraft," AIAA 71-798, July 1971. (Accepted for Publication in Journal of Aircraft).
7. McMasters, J. H. and Cole, C. J., "The Prospects of Man-Powered Flight, the Future of an Illusion," Technical Soaring. Vol. 1, No. 2, October 1971 (and Organization Scientifique et Technique International du Vol-a-Voile, OSTTV, Publication XI; 1972).
8. Cole, C. J. and McMasters, J. H., "Man-Powered Flight - A Review and Status Report," Soaring. February 1972.
9. McMasters, J. H., "The Use of Stored Energy Devices in a Man-Powered Aircraft," Soaring. August 1972.
10. McMasters, J. H. and Cole, C. J., "MIT Symposium Report," Soaring. January 1973.
11. McMasters, J. H. and Cole, C. J., "Ecoflight is Here," Lifestyle. No. 3, February 1973 (continued in No. 5 June 1973 and No. 8, December 1973).
12. McMasters, J. H., "An Introduction to Geometric Programming and Its Application to Sailplane Design," NASA CR 2315 (Motorless Flight Research, 1972), November 1973.
13. McMasters, J. H. and Cole, C. J., "The Use of Stored Energy Devices in Man-Powered Self-Launching Sailplanes," NASA CR 2315, November 1973.
14. McMasters, J. H. and Greer, R. R., "A Conceptual Study of a New Class of Winged Surface Effect Vehicles," Naval Engineers Journal. April 1974.

15. McMasters, J. H., "A Summary of Hang Gliding," Proceedings of the 1974 National Museum Soaring Symposium, Harris Hill, New York, May 1974.
16. McMasters, J. H., "An Analytic Survey of Low-Speed Flying Devices - Natural and Man-Made," AIAA 74-1019, September 1974 (Expanded Version in Technical Soaring. Vol. 3, No. 4, 1975).
17. McMasters, J. H., "The Optimization of Kremer Competition Man-Powered Aircraft," AIAA 74-1026, September 1974.
18. MacCready, P. B., Jr., and McMasters, J. H., "MIT Symposium - 1974," Soaring. December 1974.
19. McMasters, J. H., "The Optimization of Low-Speed Flying Devices by Geometric Programming," Ph.D. Thesis, Purdue University, May 1975.
20. McMasters, J. H., "Some Opportunities for Progress in Ultra-Light Aeronautics," AIAA 74-1034 (Revised version in Soaring. June 1975.)
21. McMasters, J. H. and Palmer, G. M., "Possible Applications of Soaring Technology to Drag Reduction in Powered General Aviation Aircraft," Proceedings of NASA/Industry/University General Aviation Drag Reduction Workshop, Lawrence, Kansas, July 1975.
22. McMasters, J. H., and Greer, R. R., "Large Winged Surface Effect Vehicles," Jane's Surface Skimmer Systems: Hydrofoils and Hovercraft 1975-76. Roy McLeavy, ed. London: Jane's Yearbooks, 1975.
23. McMasters, J. H., "Aerodynamics of the Long Pterosaur Wing," Science. Vol. 191, March 5, 1976, p. 899.
24. McMasters, J. H. and Palmer, G. M., "Aerodynamic Drag Reduction of Intercity Buses," U. S. Dept. of Transportation (DOT) Report No. Dot-TSC-OST-76-XX, December 1976.
25. McMasters, J. H. and Nash-Weber, J. L., "Soaring in the Year 2000 - Some Technical Extrapolation." Soaring. January 1977.
26. McMasters, J. H., "Four Ultra-Light Questions," Soaring. July 1977.
27. McMasters, J. H. and Palmer, G. M., "At the Threshold of Man-Powered Flight," Aeronautics and Astronautics. September 1977.
28. McMasters, J. H. and Palmer, G. M., "Beyond the Threshold of Man-Powered Flight," Aeronautics and Astronautics. October 1977.
29. McMasters, J. H., "Ultra-Light Survey Results," Soaring. December 1977.

30. McMasters, J. H. and McLean, J. D., "A New Challenge for Human-Powered Flight," Soaring. June 1978.
31. McMasters, J. H. and McLean, J. D., "The Formation Flight of Human-Powered Aircraft Across the English Channel in the Spring," XVIm Congress, Organization Scientifique Technique Internationale du Vol-a-Voile (OSTIV), Chateauroux, France, July 1978 (Swiss Aero Revue). December 1979 and February 1980.
32. McMasters, J. H. and Henderson, M. L., "Low-Speed Single-Element Airfoil Synthesis," NASA/SSA Third International Symposium on the Science and Technology of Low-Speed and Motorless Flight, NASA Langley Research Center, March 1979 (NASA CP 2085 Pt. 1, June 1979 and Technical Soaring. Vol. IV, No. 2, 1981).
33. McMasters, J. H., "The Ultralight Sailplane," NASA/SSA Third International Symposium on the Science and Technology of Low-Speed and Motorless Flight," NASA-LRC, March 1979 (NASA CP 2085 Pt. 2, June 1979).
34. McMasters, J. H., "The Future of Ultralight Sailplanes," Proceedings 1980 Soaring Society of America Convention, Seattle, WA, February 1980.
35. McMasters, J. H., "Advanced Concepts in Variable Geometry Sailplanes," Soaring, Pt. 1, April 1980; Pt. 2, May 1980 and Pt. 3, June 1980.
36. McMasters, J. H., "Those Who Have Imagination Without Learning Have Wings But No Feet," Keynote Address Presented at the 1980 SSA Homebuilders Workshop, Harris Hill, NY, August 1980 (Published in Soaring. October 1980).
37. McMasters, J. H., "Flying the Altostratus I," Soaring, February 1981. (and Towline, Seattle Glider Council Newsletter, April, 1980).
38. McMasters, J. H., Nordvik, R. H.; Henderson, M.L. and Sandvig, J. H., "Two Airfoil Sections Designed for Low Reynolds Number," XVIIth Congress of the Organization Scientifique of Technique Internationale du Vol-a-Voile (OSTIV) Paderborn, Germany, May 1981 (Also Technical Soaring. Vol. 6, No. 4, 1981). (also published in Technical Soaring Vol. 6, No. 4, 1981.)
39. McMasters, J. H. and Chen, M. K., "From Paleoaeronautics to the Altostratus - A Technical History of Soaring," AIAA 81-1611, Dayton, OH, August 11-13, 1981 (also published in Soaring. May - June 1983).
40. McMasters, J. H. and Henderson, M. L., "Some Recent Applications of High-Lift Computational Methods at Boeing." AIAA 81-1657, Dayton, OH, August 11-13, 1981 (also published in Journal of Aircraft. January 1983).
41. McMasters, J. H. and Sutton, R. C, "A Critique of Student Design Competitions From the Judge's Point of View," AIAA 81-1722, Dayton, OH, August 11-13, 1981.

42. McMasters, J. H. and Lamson, R. T., "The Flight Research Institute - A History and Status Report," Soaring. July 1982.
43. McMasters, J. H., "A Critique of Two Recent Sailplane Design Contests," presented at the SVIIIth OSTIV Congress, Hobbs, NM, June 1983.
44. McMasters, J. H., "Progress Report from the Flight Research Institute - 1983," presented at the XVIIIth OSTIV Congress, Hobbs, NM, June 1983.
45. Murillo, L. E. and McMasters, J. H., "A Method for Predicting Low-Speed Aerodynamic Characteristics of Transport Aircraft," AIAA 83-1845, Danvers, MA, July 13-15, 1983 (Journal of Aircraft. March 1984.)
46. Dillner, B., May, F. W. and McMasters, J. H., "Aerodynamic Issues in the Design of High-Lift Systems for Transport Aircraft," (Invited Paper) AGARD Symposium on Improvement of Aerodynamic Performance Through Boundary Layer Control and High-Lift Systems, Brussels, Belgium, April 1984 (AGARD CP No. 365, 1984.)
47. McMasters, J. H., "Reflections of a Paleoaerodynamicist," (Invited Paper), AIAA 84-2167, AIAA Third Applied Aerodynamics Conference, Seattle, WA, August 1984 (also published in Perspectives in Biology and Medicine. University of Chicago, Spring, 1986).
48. McMasters, J. H., "Some Thoughts on Design Education," AIAA 85-3079, AIAA/AHS/ASEE Aircraft Design, Systems & Operations Conference, Colorado Springs, CO, October 1985.
49. McMasters, J. H., Crowder, J. P. and Robertson, P. E., "Recent Applications of Vortex Generators to Wind Turbine Airfoils," AIAA Paper 85-5014, AIAA 4th Applied Aerodynamics Conference, Colorado Springs, CO, October 1985.
50. Reichenbach, S. H. and McMasters, J. H., "A Semiempirical Interpolation Technique for Predicting Full-Scale Flight Characteristics," AIAA Paper 87-0427, AIAA 25th Aerospace Sciences Meeting, Reno, NV, January 1987. (Accepted for publication in Journal of Aircraft).
51. McMasters, J. H., Robert, W. H., Payne, F. M., Sanford, M. C. and Durham, M., "Recent Air-Freon Tests of A Transport Airplane in High-Lift Configurations," AIAA Paper 88-2034, AIAA 15th Aerodynamic Testing Conference, San Diego, CA, May 1988.
52. Bengelink, R. L. (ghost-written by McMasters, J. H.), "The Integration of CFD and Experiment: An Industry Viewpoint," (Invited Paper), AIAA Paper 88-2043, AIAA 15th Aerodynamic Testing Conference, San Diego, CA, May 1988.
53. McMasters, J. H., "The Flight of the Bumblebee and Related Myths of Entomological Engineering," American Scientist. Vol. 77, March-April 1989, pp. 164-69.

54. McMasters, J. H., "Of Birds and Bugs and High-Lift Aerodynamics," (Invited Paper), 1990 AIAA Aerospace Engineering Conference and Show, Los Angeles, CA, February 13-14, 1990.
55. Brune, G. W. and McMasters, J. H., "Computational Aerodynamics Applied to High-Lift Systems," (Invited) in Applied Computational Aerodynamics. P. A. Henne, ed., AIAA Progress in Astronautics and Aeronautics Series, Vol. 125, Washington, DC: AIAA, 1990.
56. McMasters, J. H. and Ford, S. D., "The [Airplane] Design Professor as Shepherd (An Industry Role in Enhancing Engineering Education)," AIAA 90-3259 (Invited), AIAA/AHS/ASEE Aircraft Design and Operations Meeting, Dayton, OH, September 17-19, 1990 [Winner of "Best Paper Presentation," American Society for Engineering Education Regional Meeting, University of Washington, Seattle, WA, May 1990.]
57. McMasters, J. H. and Ford, S. D., "An Industry View of Enhancing Design Education," Engineering Education. Vol. 79, August 1990.
58. McMasters, J. H., "Paradigms Lost, Paradigms Regained: Paradigm Shifts In Engineering Education," SAE (Invited) Paper 91-1179, April 1991.
59. McMasters, J. H., "The Origins and Future of Flight: A Paleoecological Perspective," Proceedings of the AMS/IMS/SIAM/NSF Summer Research Conference on Biofluid Mechanics, Seattle, WA, July 7-11, 1991.
60. McMasters, J. H., Holt, S. C. and Derwin, William. J., "Adventures in Engineering Education at Boeing (the BCAG Engineering Division Summer Intern Program)," AIAA Paper 92-1093, Irvine, CA, February 1992.
61. Mack, M. D. and McMasters, J. H., "High Reynolds Number Testing in Support of Transport Airplane Development," (Invited Paper) AIAA 92-3982, Nashville, TN, July 6-8, 1992.
62. McMasters, J. H., "Commercial Aircraft Systems Engineering and Design" prepared for AIAA Perspectives in Aircraft System Design Short Course, Irvine, CA, February 20-21, 1993.
63. McMasters, J. H. and Kroo, I. M., "Advanced Configurations for Very Large Subsonic Transport Airplanes (Some Opportunities for Interdisciplinary Synergism)," NASA Workshop on Potential Impacts of Advanced Aerodynamic Technology on Air Transport System Productivity, Hampton, VA, June 29-July 1, 1993. [To be published in NASA Conference Proceeding 1993 and resulted in Boeing patent application filed June 28, 1993.]
64. Bengelink, R. L. and McMasters, J. H., "An Industry [Boeing] Role in Enhancing Engineering Education," Position Paper addressed to the senior management of The Boeing Company, June 1993. [Widely circulated among university faculty members and administrators and in government agencies.]

65. McMasters, J.H. "The Origins and Future of Flight (A Paleocological Perspective)", no number, American Institute of Aeronautics and Astronautics Distinguished Lecture, July 1993.
66. Friend, M. and McMasters, J.H., "An Industry Role in Enhancing Engineering Education", in Progress in Aeronautical Engineering '94, Z Goraj, ed., Warsaw University of Technology Research Bulletin No.4, Warsaw, Poland, September 1995, pp. 79-95.
67. McMasters, J.H., and Lang, J.D. "Enhancing Engineering and Manufacturing Engineering: Industry Needs, Industry Roles", ASEE (Invited) Paper 95-2522, presented at the 1995 Annual Conference of the American Society for Engineering Education, Anaheim, CA, June 25-28, 1995.
68. McMasters, J.H. and Matsch, L., "Desired Attributes of an Engineering Graduate - An Industry Perspective", AIAA (Invited) Paper 96-2241, 19th AIAA Advanced Measurement and Ground Testing Technology Conference, New Orleans, LA, June 17-20, 1996.
69. McMasters, J.H., Paisley, D.J., Hubert, R.J, Kroo, I.M., Bofah, K.K., Sullivan, J.P., Drela, M., and Gallman, J., "Advanced Configurations for Very Large Subsonic Transport Airplanes", NASA Contractor Report 198351, October, 1996.
70. Bowman, D., Lang, J., McMasters, J.H., "The Roundtable for Enhancing Engineering Education – An Update", AIAA paper 97-0844, Reno, NV, January 6-10, 1997.
71. McMasters, J.H., Kroo, I.M., "Advanced Configurations for Very Large Transport Airplanes", Invited AIAA paper 98-0439, Reno, NV, January 12-15, 1998.
72. McMasters, J.H., Kroo, I.M., "Advanced Configurations for Very Large Transport Airplanes", Aircraft Design, An International Journal, Issue 4, 1998
73. McMasters, J.H., "The Origins of Flight – A Brief History of Unconventional Applied Aerodynamics", Invited Paper, AIAA paper 99-0115, Reno, NV, January 11-14, 1999.
74. McMasters, J.H., White, B.J., and Okiishi, T.H., "Industry-University-Government Roundtable for Enhancing Engineering Education (IUGREEE) – History, Status and Future Plans", Invited Paper, AIAA paper 99-0281, Reno, NV, January 11-14, 1999.
75. Lang, J.D., Cruse, S., McVey, F.D., McMasters, J.H., "Industry Expectation of New Engineers: A Survey to Assist Curriculum Designers", Journal of Engineering Education, January, 1999.
76. McMasters, J.H., and Cummings, R.M., "Airplane Design – Past, Present, and Future", AIAA paper 2001-0535, Reno, NV, January 8-11, 2001. (Also published in AIAA Journal of Aircraft, Vol. 39, No. 1, January-February, 2002).

77. McMasters, J.H., and Cummings, R.M., “Airplane Design as a Social Activity: Emerging Trends in the Aerospace Industry [Chapter 3 in The Demise of Aerospace – We Doubt It.]”, invited AIAA paper 2002-0516, Reno, NV, January 14-17, 2002.
78. McMasters, J.H., and Cummings, R.M., “From Farther, Faster, Higher to Leaner, Meaner, Greener – Future Directions in Airplane Design in the New Century [Chapter 4 in The Demise of Aerospace – We Doubt It]”, invited AIAA paper 2003-0553, Reno, NV, January 6-9, 2003. (Also published in Journal of Aircraft).
79. McMasters, J.H., “Bird Flight – The Challenge to Learn From Them (Many Possible Solutions Looking for a Problem)”, DARPA Morphing Aircraft Structures (MAS) Kick-off Meeting, Tucson, AZ, January 26-28, 2003.
80. McMasters, J.H., “The Biomechanics of Flight – A More Complete Multidisciplinary Perspective on Airplane Design”, invited presentation to National Institute for Aerospace, NASA Langley Research Center, Hampton, VA, October 20, 2003.
81. McMasters, J.H., Cummings, R.M., “Rethinking the Airplane Design Process – An Early 21st Century Perspective [Vol.5 in a series: The Demise of Aerospace – We Doubt It or The Airplane Design Professor as Shepherd], AIAA paper 2004-0693, Reno, NV, January 5-6, 2004.
82. McMasters, J.H., Cummings, R.M., “Airplane Design and the Biomechanics of Flight – A More Completely Multi-Disciplinary Perspective [Vol.6 in a series: The Demise of Aerospace – We Doubt It or The Airplane Design Professor as Shepherd], AIAA paper 2004-0532, Reno, NV, January 5-6, 2004.
83. McMasters, J.H., Cummings, R.M., “Some Systemic Issues in the Development of the Aerospace Industry Technical Workforce of the Future [Vol.7 in a series: The Demise of Aerospace – We Doubt It or The Airplane Design Professor as Shepherd], AIAA paper 2004-1376, Reno, NV, January 5-6, 2004.
84. McMasters, J.H., “Influencing Engineering Education: One (Aerospace) Industry Perspective”, International Journal of Engineering Education, Vol. 20, No. 3, 2004.
85. McMasters, J.H., “The Biomechanics of Flight: Many Possible Solutions Looking for Problems”, International Journal of Engineering Education, Vol. 20, No. 3, 2004.
86. McMasters, J.H., Cummings, R.M., “Those Who Have Imagination but Not Learning Have Wings But No Feet – Early 21st Century Challenges for Aerospace and Engineering Education”, The BENT of Tau Beta Pi, Summer, 2004.
87. McMasters, J.H., “Reflections on the Future of Aeronautics – An Early 21st Century Perspective”, 29th SAE/AIAA Littlewood Memorial Lecture, AIAA paper 2005-0004, Reno, NV, January 10-13, 2005.

88. McMasters, J.H., "A U.S. Perspective on Future Commercial Airliner Design", Von Karman Institute for Fluid Dynamics Lecture Series "Innovative Configurations for Future Civil Transports", June 6-10, 2005.
89. McMasters, J.H., and Komerath, N., "Boeing University Relations - A Review and Prospects for the Future", ASEE paper 2005-1293, Portland, WA, June 13-15, 2005.
90. McMasters, J.H., "Thoughts on the Engineer of 2020 – An Early 21st Century [Aerospace] Industry Perspective", presented at "The Future of Engineering, Science and Mathematics: Who Will Lead?" Harvey Mudd College, Claremont, CA, January 14, 2006.
91. McMasters, J.H., "A Paleoaerodynamicist's Reflections, A Perspective on Airplane Design and the Biomechanics of Flight", Leonardo Times, September, 2006.
92. McMasters, J.H., "Thoughts on the Engineer of 2020 – An [Aerospace] Industry Perspective", presented at "Conference on Labor, Knowledge, and the Economy", University of Washington, October 14, 2006, and at the "Design and Engineering Education in a Flat World" Harvey Mudd Design Workshop VI, Claremont, CA, May 23-25, 2007.
93. McMasters, J.H., Muncy, D.L., "The Early Development of Jet Propelled Aircraft – A Review of German Contributions to Aerospace Technology", AIAA paper 2007-0151, Reno, NV, January 8-11, 2007.
94. McMasters, J.H. and Muncy, D.L., "'Smart Wings' as an Enabler of Future Highly Efficient Subsonic Aircraft and Technical Workforce Development", AIAA paper 2007-1049, Reno, NV, January 8-11, 2007.
95. McMasters, J.H., "Reflections of a Paleoaerodynamicist – An Early 21st Century Perspective on Aircraft Design", AIAA and Sigma Xi Distinguished Lectures, May, 2007.
96. McMasters, J.H. , Dym C.L., "Paging Mr. Jefferson," *Prism*, ASEE, Washington, DC, Vol. 18, No. 4, p. 96, December 2008.
